Pension terms in **bold** are defined in the [Some terms we use](#) section.

## Highlights of the LGPS

The LGPS gives you:

**Secure benefits:**

the Scheme provides you with a future income, independent of share prices and stock market fluctuations.

**At a low cost to you:**

with tax-efficient savings.

**And your employer pays in too:**

the Scheme is provided by your employer who meets the balance of the cost of providing your benefits in the LGPS.

You can look forward to your retirement in the LGPS with:

**A secure pension:**

worked out every **Scheme year** and added to your **pension account**. The pension added to your account at the end of a **Scheme year** is an amount equal to a 49th of your **pensionable pay** in that year, if you are in the main section. At the end of every **Scheme year** the total amount of pension in your account is adjusted to take into account the cost of living (as currently measured by the **Consumer Prices Index (CPI)**).

**Flexibility to pay more or less contributions:**

you can boost your pension by paying more contributions, which you would get tax relief on. You also have the option to pay half your normal contributions in return for half your normal pension. This is known as the 50/50 section of the Scheme. The 50/50 section is designed to help members stay in the Scheme when times are financially tough.

**Tax-free cash:**

you have the option when you take your pension to exchange part of it for some tax-free cash.

**Peace of mind:**

your family enjoys financial security, with immediate life cover and a pension for your spouse, **civil partner** or **eligible cohabiting partner** and **eligible children** in the event of your death in service. If you ever become seriously ill and you've met the two years **vesting period**, you could receive immediate ill health benefits.

**Freedom to choose when to take your pension:**

You do not need to have reached your **Normal Pension Age** in order to take your pension. Once you've met the two years **vesting period**, you can choose to retire and take your pension at any time between age 55 and 75.

Your **Normal Pension Age** is simply the age you can retire and take the pension you've built up in full. If you choose to take your pension before your **Normal Pension Age** it will normally be reduced, as it's being paid earlier. If you take it later than your **Normal Pension Age** it's increased because it's being paid later.

**Redundancy and efficiency retirement:**

if you are made redundant or retired in the interests of business efficiency when you are 55 or over, you will receive immediate payment of the benefits you've built up, provided you've met the two years **vesting period**. Your main LGPS benefits would not be reduced for early payment. Any additional pension you have bought would be reduced if you are under your **Normal Pension Age** when you retire.

**Flexible retirement:**

You may wish to consider flexible retirement if:

- you are age 55 or over
- you have met the two years vesting period, and
- your employer agrees.

Flexible retirement helps you ease into retirement. If you reduce your hours or move to a less senior position, you can take some or all the benefits you have already built up. Your benefits may be reduced for early payment.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

### The Scheme

This guide is a short description of the conditions of membership and main Scheme benefits that apply if you pay into the LGPS on or after 1 April 2014.

You can find out more about the scheme in the [LGPS member videos: Pensions Made Simple](#). 'What is a Pension' and 'How your Pension Works' provide brief introductions to the scheme.

#### What kind of scheme is it?

The LGPS is a tax approved, defined benefit occupational pension scheme which was set up under the Superannuation Act 1972. In the future, Scheme rules will be made under the Public Service Pension Schemes Act 2013.

The LGPS was contracted out of the State Second Pension scheme (S2P) until 5 April 2016. From 6 April 2016, the 'contracted out' status ended for all pension schemes due to the introduction of the single tier State Pension. The LGPS meets the government's standards under the automatic enrolment provisions of the Pensions Act 2008.

The amount of pension you earn in a **Scheme year** is worked out each year and added to your **pension account**. The total amount of pension in your **pension account** is revalued at the end of each **Scheme year** so your pension keeps up with the cost of living.

The LGPS is very secure because the benefits are set out in law.

#### Who can join?

The LGPS covers employees working in local government and for other organisations that have chosen to participate in it. To be able to join the LGPS, you need to be under age 75 and work for an employer that offers membership of the Scheme. If you are employed by a designating body, such as a town or parish council, or by a non-local government organisation which participates in the LGPS (an **admission body**), you can only join if your employer nominates you for membership of the Scheme. Police officers, operational firefighters and, in general, teachers and employees eligible to join another public service pension scheme, such as the NHS Pension Scheme, are not allowed to join the LGPS.

If you start a job in which you are eligible for membership of the LGPS, you will be brought into the Scheme if your contract of employment is for three months or more.

- If your contract of employment is for less than three months and you are, or during that period you become, an **Eligible Jobholder** you will normally be brought into the Scheme from the **automatic enrolment date**. If your employer issues you with a postponement notice, then your entry to the Scheme could be delayed by up to three months.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

- If your contract is extended to be for three months or more, you will be brought into the Scheme from the beginning of the pay period after the one in which your contract is extended.
- If you opt to join by completing an application form, you will be brought into the Scheme from the beginning of the pay period after the one in which you opt to join.

If you are brought into the Scheme you have the right to opt out. You cannot complete an opt out form until you have started your employment.

### How will I know that I have joined the LGPS?

On joining the LGPS, relevant records and a **pension account** will be set up and an official notification of your membership of the LGPS will be sent to you. If you have more than one employment in the Scheme, a **pension account** will be set up for each one. **You should check your payslip to make sure that pension contributions are being deducted.**

### Can I opt out of the LGPS and re-join later?

Yes, you can opt out of the Scheme. If you are thinking of opting out you might first want to consider an alternative option, which is to move to the 50/50 section of the Scheme. In the 50/50 section, you pay half your normal contributions in return for half your normal pension build-up. To find out more, see the section on [Flexibility to pay less](#).

If, having considered the 50/50 option, you still decide the LGPS is not for you, you can leave the LGPS at any time on or after your first day of eligible employment by giving your employer notice in writing. You might want to take independent financial advice before making the final decision to opt out.

If you opt out of the LGPS before completing three months' membership, you will be treated as never having been a member. Your employer will refund to you, through your pay, any contributions you have paid.

If you opt out of the LGPS with three or more months' membership and before completing the two years **vesting period**, you can usually take a refund of your contributions (less any statutory deductions) or transfer out your pension to another scheme.

If you opt out of the LGPS after meeting the two years **vesting period**, you will have deferred benefits in the Scheme. You will generally have the same options as anyone leaving their job before retirement, except you cannot take your deferred benefits unless you have left your job. If you re-join the Scheme you will not be permitted to join your deferred benefit with the **pension account** that will be created when you re-join the Scheme. Instead, you will have two separate sets of pension benefits.

If you opt out, you can opt back into the Scheme at any time before age 75, provided you are otherwise eligible to join the Scheme.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

If you opt out of the LGPS:

- on the date your employer is first required to comply with the automatic enrolment provisions under the Pensions Act 2008, your employer will automatically enrol you back into the LGPS if you are an **Eligible Jobholder** at that time in the job you've opted out from, or
- if, on the date your employer is first required to comply with the automatic enrolment provisions under the Pensions Act 2008, you are not an **Eligible Jobholder** in the job you opted out from, if you subsequently become an **Eligible Jobholder** in that job, your employer will automatically enrol you back into the LGPS from the **automatic enrolment date**.

Your employer must notify you if this happens. You would then have the right to opt out of the LGPS again.

If you stay opted out, your employer will normally automatically enrol you back into the LGPS approximately every three years from the date they have to comply with the automatic enrolment provisions provided you are an **Eligible Jobholder** at that time.

Your employer can choose not to automatically enrol you if:

- you had opted out of the LGPS less than 12 months before the date you would have been automatically enrolled in the job, or
- notice to terminate employment has been given before the end of the period of six weeks beginning with what would have been the date you were automatically enrolled in the job, or
- your employer has reasonable grounds to believe that, on what would have been the date they automatically enrolled you, you hold Primary Protection, Enhanced Protection, Fixed Protection, Fixed Protection 2014, Individual Protection 2014, Fixed Protection 2016 or Individual Protection 2016.

### What do I pay?

Your contribution rate depends on how much you are paid but it's currently between 5.5% and 12.5% of your **pensionable pay**. If you elect for the 50/50 section of the Scheme you would pay half the rates listed below. The rate you pay depends on which pay band you fall into. When you join, and every April afterwards, your employer will decide your contribution rate. If your pay changes throughout the year, your employer may decide to review your contribution rate.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

Here are the pay bands and the rates that apply from April 2020.

**Table 1: Contribution bands for 2020/21**

<b>If your actual pensionable pay is:</b>	<b>You pay a contribution rate of:</b>
Up to £ 14,600	5.5%
£ 14,601 to £ 22,800	5.8%
£ 22,801 to £ 37,100	6.5%
£ 37,101 to £ 46,900	6.8%
£ 46,901 to £ 65,600	8.5%
£ 65,601 to £ 93,000	9.9%
£ 93,001 to £ 109,500	10.5%
£ 109,501 to £ 164,200	11.4%
£ 164,201 or more	12.5%

The contribution rates and pay bands in the table above will be reviewed periodically and may change in the future.

### **Do I get tax relief?**

As a member of the LGPS, if you earn enough to pay tax, your contributions will attract tax relief when they are deducted from your **pensionable pay**. There are restrictions on the amount of tax relief available on pension contributions. If the value of your pension savings increases in any one year by more than the standard annual allowance of £40,000 (2020/21) you may have to pay a tax charge. Most people will not be affected by the annual allowance.

### **Contributions**

#### **Does my employer contribute?**

Your employer currently pays the balance of the cost of providing your benefits in the LGPS. Every three years an independent review is undertaken to calculate how much your employer should contribute to the Scheme.

#### **Is there flexibility to pay less in contributions?**

Yes, there is an option known as 50/50. In the 50/50 section you pay half the normal contributions and build up half the normal pension during the time the reduced contributions are being paid. See the section on [Flexibility to pay less](#).

#### **Can I pay extra to increase my benefits?**

You can increase your benefits by paying extra contributions, known as Additional Pension Contributions (APCs), to buy extra LGPS pension, or by making payments to the Scheme's **Additional Voluntary Contributions (AVC)** arrangement. See the section on [Flexibility to pay more](#).

Pension terms in **bold** are defined in the [Some terms we use](#) section.

### Re-joining the LGPS

If you re-join the LGPS and you have deferred benefits in an LGPS fund in England or Wales, your deferred benefits will generally be automatically joined with your new active **pension account**. You will have 12 months from re-joining the scheme to make your decision. Your employer may allow you longer to decide.

Different rules apply if you have deferred benefits in an LGPS fund in England or Wales because you opted out of the Scheme on or after 11 April 2015. You cannot join those benefits with your new active **pension account**. They will remain as a separate deferred benefit.

If you re-join the LGPS in England or Wales and have a deferred refund this **must** be joined with your new active **pension account**.

### What about any non-LGPS pension rights I have?

If you have paid into another non-LGPS pension arrangement or to the LGPS in Scotland or Northern Ireland, you may be able to transfer your previous pension rights into the LGPS. You only have 12 months from joining the LGPS to opt to transfer your previous pension rights, unless your employer and LGPS administering authority allow you longer. You cannot transfer a pension that is already being paid to you.

### What if I'm already receiving an LGPS pension?

If you are already receiving a pension from the Scheme, some or all of which you built up before 1 April 2014, and you are re-employed in local government or by an employer who offers membership of the LGPS, your pension may be affected. You must tell the LGPS administering authority that pays your pension about your new employment, regardless of whether you join the Scheme in your new position or not. They will let you know whether your pension in payment is affected in any way.

If you are receiving a pension from the Scheme, all of which you built up after 31 March 2014, and you are re-employed in local government or by an employer who offers membership of the LGPS, you do not need to inform the LGPS administering authority that pays your pension. There is no effect on your pension in payment. The only exception to this is if you are in receipt of a LGPS ill health pension of the type that is stopped if you are in any gainful employment. If this is the case, **you must inform the employer who awarded you that pension**. They will let you know whether your pension in payment should be stopped.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

### Contribution Flexibility

You can find out more about the scheme in the [LGPS member videos: Pensions Made Simple](#). 'Looking after your pension' introduces ways that you can pay reduced or extra contributions.

#### Flexibility to pay less

When you join the Scheme, you will be placed in the main section of the Scheme. However, once you are a member of the Scheme you will be able to elect in writing, at any time, to move to the 50/50 section if you wish.

In the 50/50 section you pay half your normal contributions. This flexibility may be useful during times of financial hardship as it allows you to remain in the Scheme, building up valuable pension benefits, instead of opting out of the Scheme.

A 50/50 option form is available from your employer. If you have more than one job in which you contribute to the Scheme, you would need to specify in which of the jobs you wish to move to the 50/50 section.

If you elect for 50/50, you would be moved to that section from the next available pay period. You would then start paying half your normal contributions and build up half your normal pension during the time you are in that section. When you make an election for the 50/50 section, your employer must provide you with information on the effect this will have on your benefits in the Scheme.

If you were to die in service whilst in the 50/50 section of the Scheme, the lump sum death grant and any survivor pensions would be worked out as if you were in the main section of the Scheme. If you are awarded an ill health pension which includes an amount of enhanced pension, the amount of enhanced pension added to your **pension account** is worked out as if you were in the main section of the Scheme.

The 50/50 section is designed to be a short-term option for when times are tough financially. Because of this, your employer must re-enrol you back into the main section of the Scheme approximately three years from the date they first have to comply with the automatic enrolment provisions of the Pensions Act 2008 (and approximately every three years after that). If you wished to continue in the 50/50 section at that point you would need to make another election to remain in the 50/50 section.

There is no limit to the number of times you can elect to move between the main and the 50/50 sections.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

### Flexibility to pay more

There are several ways you can provide extra benefits on top of the benefits you are already looking forward to as a member of the LGPS.

You can improve your retirement benefits by paying:

- Additional Pension Contributions (APCs) to buy extra LGPS pension
- **Additional Voluntary Contributions (AVCs)** arranged through the LGPS (in-house AVCs),
- Free Standing Additional Voluntary Contributions (FSAVCs) to a scheme of your choice,
- contributions to a stakeholder or personal pension plan.

The North Yorkshire Pension Fund (NYPF) can give you more information on the first two of these options. Contact details are at the end of this guide. You may wish to take independent financial advice before you decide to pay extra.

### Your Pension

Your LGPS benefits are made up of:

- an annual pension that, after leaving, increases every year in line with the cost of living for the rest of your life, and
- the option to exchange part of your pension for a tax-free lump sum paid when you take your pension benefits.

### How is my pension worked out?

#### Benefits built up from 1 April 2014

Every year, you will build up a pension at a rate of 1/49th of the amount of **pensionable pay** (and **assumed pensionable pay**) you received in that **Scheme year** if you are in the main section of the Scheme. You will build up a pension at half this rate if you are in the 50/50 section of the Scheme.

The amount of pension built up during the **Scheme year** is added to your **pension account** and revalued at the end of each **Scheme year**, so your pension keeps up with the cost of living.

#### What pay is used to work out my pension from 1 April 2014?

The amount of pension added into your **pension account** at the end of the **Scheme year** is worked out using your **pensionable pay** which is the amount of pay on which you pay your normal pension contributions.

If during the **Scheme year** you had been:

- on leave on reduced contractual pay or no pay due to sickness or injury,
- on **relevant child related leave** or
- **reserve forces service leave**

then, for the period of that leave, your pension is based on your **assumed pensionable pay**.

#### How is my pension worked out – an example

Let's look at the build-up in a member's **pension account** for seven years in the Scheme. Let's assume that:

- the member joined the Scheme on 1 April 2014
- their **pensionable pay** was £24,500 in 2014/15
- their **pensionable pay** increases by 1% each year
- The cost of living (revaluation adjustment) for the end of the Scheme years ending 31 March 2015, 2016, 2017, 2018, 2019 and 2020 is 1.2%, -0.1%, 1%, 3%, 2.4% and 1.7% respectively
- the cost of living (revaluation adjustment) for the following year is 2%.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

Table 2: Example of pension build-up

Scheme Year	Opening Balance	Pension Build up in Scheme Year Pay / Build up rate = Pension	Total Account 31 March	Cost of Living Revaluation Adjustment	Updated Total Account
1 2014/15	£0.00	$\text{£}24,500 \div 49 = \text{£}500$	£500	1.2% = £6	$\text{£}500 + \text{£}6 = \text{£}506$
2 2015/16	£506	$\text{£}24,745 \div 49 = \text{£}505$	£1,011.00	-0.1% = -£1.01	$\text{£}1,011.00 + \text{-£}1.01 = \text{£}1,009.99$
3 2016/17	£1,009.99	$\text{£}24,992.45 \div 49 = \text{£}510.05$	£1,520.04	1% = £15.20	$\text{£}1,520.04 + \text{£}15.20 = \text{£}1,535.24$
4 2017/18	£1,535.24	$\text{£}25,242.37 \div 49 = \text{£}515.15$	£2,050.39	3% = £61.51	$\text{£}2,050.39 + \text{£}61.51 = \text{£}2,111.90$
5 2018/19	£2,111.90	$\text{£}25,494.79 \div 49 = \text{£}520.30$	£2,632.20	2.4% = £63.17	$\text{£}2,632.20 + \text{£}63.17 = \text{£}2,695.37$
6 2019/20	£2,695.37	$\text{£}25,749.74 \div 49 = \text{£}525.50$	£3,220.87	1.7% = £54.75	$\text{£}3,220.87 + \text{£}54.75 = \text{£}3,275.62$
7 2020/21	£3,275.62	$\text{£}26,007.24 \div 49 = \text{£}530.76$	£3,806.38	2.0% = £76.13	$\text{£}3,806.38 + \text{£}76.13 = \text{£}3,882.51$

#### Benefits built up before 1 April 2014

On 1 April 2014, the LGPS changed from a final salary scheme to a career average scheme. If you joined the LGPS before 1 April 2014, you have built up benefits in the final salary scheme. These benefits are calculated differently, using your membership up to 31 March 2014 and your final year's pay.

**For membership built up to 31 March 2008**, you receive a pension of 1/80th of your **final pay** plus an automatic tax-free lump sum of three times your pension.

**For membership built up from 1 April 2008 to 31 March 2014**, you receive a pension of 1/60th of your **final pay**. There is no automatic lump sum for membership built up after March 2008, but you do have the option to exchange some of your pension for a tax-free lump sum.

If you were paying into the LGPS on 31 March 2012 and were within 10 years of age 65 at 1 April 2012, you may qualify for an additional protection called **the underpin**. If you are covered by the underpin, you will get a pension at least equal to that which you would have received if the Scheme had not changed on 1 April 2014.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

## LGPS member guide | Your pension

The underpin can also apply if:

- you were an active member of another public service pension scheme on 31 March 2012,
- you were within 10 years of age 65 on 1 April 2012, and
- you subsequently join the LGPS and transfer your pension benefits from the other public service pension scheme into the LGPS.

If you are covered by the underpin, a calculation will be performed when you stop contributing to the Scheme, or at your protected **Normal Pension Age** if earlier. The purpose of the calculation is to check that the pension you have built up is at least equal to the pension you would have received if the Scheme had not changed on 1 April 2014. If it isn't, the difference will be added into your **pension account** when your pension is paid to you.

The underpin calculation is slightly different if you have been in the 50/50 section of the Scheme at any time. The pension you would have built up in the main section of the Scheme is compared with the pension you would have received if the Scheme had not changed on 1 April 2014.

More information on the underpin is available from the [national website for LGPS members](#).

### Can I exchange part of my pension for a lump sum?

You can exchange part of your pension for a one-off tax-free cash payment. You will receive £12 lump sum for each £1 of annual pension given up. You can take up to 25% of the capital value of your pension benefits as a lump sum. The total lump sum must not exceed £268,275 (2020/21 figure). If you have previously taken payment of (crystallised) pension benefits, you can take 25% of your remaining lifetime allowance as a lump sum. Details of the maximum tax-free cash payment you can take will be given to you shortly before your retirement. It is at that time you need to make a decision.

### Taking AVCs as cash

If you pay **Additional Voluntary Contributions (AVCs)** in the LGPS, you may be able to take your AVC fund as a tax-free lump sum. This option will be open to you if:

- you take your AVC at the same time as your main LGPS benefits
- your AVC plus your LGPS lump sum is less than 25% of the overall value of your LGPS benefits (including your AVC fund) and
- the total lump sum doesn't exceed £268,275<sup>1</sup> (2020/21 figure).

Details of this option will be given to you shortly before your retirement.

---

<sup>1</sup>Or if you have previously taken payment of (crystallised) pension benefits the total lump sum must not exceed 25% of your remaining lifetime allowance

Pension terms in **bold** are defined in the [Some terms we use](#) section.

## Retirement

You can find out more about the scheme in the [LGPS member videos: Pensions Made Simple](#). 'Life after work' covers your options when you take your pension.

### When can I retire and take my LGPS pension?

You can choose to retire and take your pension from the LGPS at any time from age 55 to 75, provided you have met the two years **vesting period** in the Scheme.

The **Normal Pension Age** in the LGPS is linked to your **State Pension Age**, but with a minimum of age 65. If the **State Pension Age** changes in the future, then this change will also apply to your **Normal Pension Age** for benefits built up after 31 March 2014.

If you voluntarily retire before, on or after your **Normal Pension Age** you can defer taking your benefits, but you must take them before age 75. If you take your pension after your **Normal Pension Age**, your benefits will be paid at an increased rate to reflect late payment.

If you built up membership in the LGPS before 1 April 2014 then you will have membership in the final salary scheme. These benefits have a different **Normal Pension Age**, which for most people is age 65.

You may have to retire at your employer's instigation, perhaps because of redundancy, business efficiency or permanent ill health. Provided you have met the two years **vesting** period, in these circumstances your LGPS benefits will provide you with an immediate retirement pension.

### Will my pension be reduced if I retire early?

If you choose to retire before your **Normal Pension Age** your benefits will normally be reduced because they will be paid for longer. Your benefits are calculated as set out in the [How is my pension worked out?](#) section and are then reduced. How much your benefits are reduced by depends on how early you take them.

**If you were a member of the LGPS at any time between 1 April 1998 and 30 September 2006**, some or all your benefits paid early could be protected from the reduction if you have rule of 85 protection.

### What if I lose my job through redundancy or business efficiency?

If you are aged 55 or over you will be entitled to the immediate unreduced payment of your LGPS benefits, provided you have met the two years **vesting period** in the Scheme. However, any additional pension paid for by Additional Pension Contributions (APCs) or by Shared Cost Additional Pension Contributions (SCAPCs) would be paid at a reduced rate if the retirement occurred before your **Normal Pension Age**. If you have bought additional pension by Additional Regular Contributions (ARCs), that additional pension would be paid at a reduced rate if the retirement occurs before your pre-1 April 2014 **Normal Pension Age** which, for most, is age 65.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

### What happens if I have to retire early due to ill health?

If you have to leave work due to illness you may be able to receive immediate payment of your benefits.

To qualify for ill health benefits:

- you must have met the two years **vesting period** in the Scheme
- your employer, based on an opinion from an independent occupational health physician appointed by them, must be satisfied that:
  - you will be permanently unable to do your own job until your **Normal Pension Age** and
  - you are not immediately capable of undertaking gainful employment.

Ill health benefits can be paid at any age and are not reduced for early payment. In fact, your benefits could be increased to make up for your early retirement if you are unlikely to be capable of gainful employment within three years of leaving.

### Can I have a gradual move into retirement?

This is known as flexible retirement. If your employer agrees, from age 55:

- if you reduce your hours or
  - move to a less senior position
- and
- provided you have met the two years **vesting period** in the Scheme

you can take some or all of the pension benefits you have built up, helping you ease into retirement.

If you take flexible retirement before your **Normal Pension Age** your benefits may be reduced because of early payment, unless your employer agrees to waive the all or part of the reduction. If your employer agrees to flexible retirement, you can still receive your pay from your job on the reduced hours or grade and continue paying into the LGPS, building up further benefits in the Scheme. Flexible retirement is at the discretion of your employer and they must set out their policy in a published statement.

### What if I carry on working after my Normal Pension Age?

If you carry on working after your **Normal Pension Age** you will continue to pay into the LGPS, building up further benefits. When you eventually retire you will receive your pension unless you choose to delay taking it. Your pension must be paid to you by age 75. Your pension will be paid at an increased rate to reflect the fact that it will be paid for a shorter time.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

**How does my pension keep its value?**

On retiring on or after age 55, your LGPS pension increases in line with the cost of living every year throughout your retirement. As the cost of living increases, so will your pension. If you retire on ill health grounds, your pension is increased each year regardless of your age.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

## Protection for your family

You can find out more about the scheme in the [LGPS member videos: Pensions Made Simple](#). 'Protection for you and your family' covers death benefits in the LGPS.

### What benefits will be paid if I die in service?

If you die in service as a member of the LGPS the following benefits are payable:

- A lump sum death grant of three times your **assumed pensionable pay**
- Pensions for **eligible children**
- A spouse's, **civil partner's** or, subject to certain qualifying conditions, an **eligible cohabiting partner's** pension.

### What will be paid to my spouse, civil partner or cohabiting partner?

For each year of membership from 1 April 2014 to your date of death, the pension payable to a spouse, **civil partner** or **eligible cohabiting partner** is the total of:

- 1/160th of your **pensionable pay** (or **assumed pensionable pay**)
- 49/160ths of the amount of any pension credited to your pension account following a transfer of pension rights into the Scheme, and
- 1/160th of your **assumed pensionable pay** for each year of membership you would have built up from your date of death to your **Normal Pension Age**.

For final salary membership built up **before** 1 April 2014, the pension payable to a spouse or **civil partner** is equal to 1/160th of your **final pay** times your membership up to 31 March 2014. For an **eligible cohabiting partner**, the calculation is the same, but the pension is only based on:

- your membership after 5 April 1988 plus
- any of your membership before 6 April 1988 that you have paid additional contributions for, so that it counts towards an **eligible cohabiting partner's** pension.

If you are in the 50/50 section of the Scheme when you die, this does not affect the value of any pension for your **spouse, civil partner, eligible cohabiting partner** or **eligible children**.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

### What benefits will be paid if I die after retiring?

If you die after retiring on pension, a spouse's, **civil partner's** or an **eligible cohabiting partner's** pension and pensions for **eligible children** are payable.

For each year of membership from 1 April 2014 to your date of death, the pension payable to a spouse, **civil partner** or **eligible cohabiting partner** is the total of:

- 1/160th of the **pensionable pay** (or **assumed pensionable pay**)
- 49/160ths of the amount of any pension credited to your **pension account** following a transfer of pension rights into the Scheme from another pension Scheme or arrangement.

For final salary membership built up **before** 1 April 2014 the pension payable to a spouse or **civil partner** is equal to 1/160th of your **final pay** times your membership in the Scheme up to 31 March 2014. If you marry or enter into a **civil partnership** after retiring, it could be less. For an **eligible cohabiting partner**, the calculation is the same, but the pension is only based:

- your membership after 5 April 1988 plus
- any of your membership before 6 April 1988 that you have paid additional contributions for, so that it counts towards an **eligible cohabiting partner's** pension.

### Will a lump sum death grant be paid?

A lump sum death grant will be paid if:

- you die after retiring on pension
- less than ten years pension has been paid and
- you are under age 75.

The amount payable would be ten times the level of your annual pension before giving up any pension for a tax-free cash lump sum, reduced by any pension already paid to you and the amount of any tax-free cash lump sum you chose to take when you retired. There is a slight modification to this calculation for any part of the pension you were receiving which relates to membership before 1 April 2014.

If you are receiving a pension and are also an active member of the Scheme, or have a separate deferred benefit when you die, this may impact on the death grant that is paid.

### Will my cohabiting partner be paid a survivor's pension?

If you have a cohabiting partner, of either opposite or same sex, they will be entitled to receive a survivor's pension on your death if they meet certain criteria.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

## LGPS member guide | Protection for your family

For an **eligible cohabiting partner's** survivor's pension to be payable, all the following conditions must have applied for a continuous period of at least two years on the date of your death:

- you and your cohabiting partner are, and have been, free to marry each other or enter into a **civil partnership** with each other, and
- you and your cohabiting partner have been living together as if you were a married couple, or **civil partners**, and
- neither you or your cohabiting partner have been living with someone else as if you/they were a married couple or **civil partners**, and
- either your cohabiting partner is, and has been, financially dependent on you or you are, and have been, financially interdependent on each other.

On your death, a survivor's pension would be paid to your cohabiting partner if:

- all the above criteria apply at the date of your death, and
- your cohabiting partner satisfies the LGPS administering authority that the above conditions had been met for a continuous period of at least two years immediately before your death.

### Who is the lump sum death grant paid to?

The LGPS allows you to indicate who you would like any death grant to be paid to by completing and returning an expression of wish form. This [form](#) is available from the NYPF website at [www.nypf.org.uk](http://www.nypf.org.uk) > Forms/Guides > Useful Forms. The Scheme's administering authority, however, retains absolute discretion when deciding on who to pay any death grant to. You can find out how to contact your administering authority at the end of this guide.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

## Leaving the Scheme before retirement

If you leave your job before retirement and have met the two years **vesting period**, you will have built up an entitlement to a pension. You will have two options:

- you can choose to keep your benefits in the LGPS. These are known as deferred benefits and will increase every year in line with the cost of living, or
- you may be able to transfer your deferred benefits to another pension arrangement.

If you leave your job before retirement and **have not** met the two years **vesting period**, you will have three options:

- you will normally be able to claim a refund of your contributions, or
- you may be able to transfer your benefits to a new pension arrangement, or
- you can delay your decision until you either re-join the LGPS, transfer your benefits to a new pension arrangement, or want to take a refund of contributions. A refund of contributions must be paid within five years of the date you left the Scheme (or by age 75 if earlier).

### Refunds of contributions

If you leave with less than two years' Scheme membership or opt out of the Scheme with more than three months but less than two years' membership, you will normally be able to take a refund of your contributions. There will be a deduction for tax and the cost, if any, of buying you back into the State Second Pension scheme (S2P) in relation to any membership before 6 April 2016. A refund of contributions must be paid within five years of the date you left the Scheme (or age 75 if earlier).

### Deferred benefits

If you leave before your **Normal Pension Age** and you meet the two years **vesting period**, you will be entitled to deferred benefits within the LGPS. Your deferred LGPS benefits will be calculated as described in the [How is my pension worked out?](#) section.

While your pension benefits are deferred, they will increase each year in line with the cost of living.

Your deferred benefits will normally be paid unreduced at your **Normal Pension Age**, unless one of the following happens:

- You transfer your deferred benefits to another pension scheme or arrangement.
- Your benefits are paid early on health grounds. Your benefits could be paid in full if:
  - you are permanently incapable of doing the job you were working in when you left the LGPS and

Pension terms in **bold** are defined in the [Some terms we use](#) section.

- you are unlikely to be capable of undertaking any gainful employment within three years of the date you applied for your LGPS pension to be paid because of ill-health or by your **Normal Pension Age**, whichever is the earlier.
- You elect to receive your deferred benefits early from age 55 onwards.
- You elect not to receive your deferred benefits at your **Normal Pension Age** and defer receiving your pension until later. Your benefits must be paid by age 75.

Benefits paid earlier than your **Normal Pension Age**, other than on the grounds of permanent ill health, may be reduced to take account of their early payment and the fact that your pension will be paid for longer. Benefits paid after your **Normal Pension Age** will be increased.

### What benefits will be paid if I die as a deferred member?

If you leave with deferred benefits and you die before they come into payment, a lump sum death grant equal to five years' pension will be paid. If you have deferred benefits and are also an active member of the Scheme when you die this may impact on the death grant that is paid.

The LGPS allows you to say who you would like any death grant to be paid to by completing an expression of wish form. This [form](#) is available from the NYPF website at [www.nypf.org.uk](http://www.nypf.org.uk) > Forms/Guides > Useful Forms. You can find out how to contact the administering authority at the end of this guide. The Scheme's administering authority retains absolute discretion when deciding on who to pay any death grant to.

If you leave with deferred benefits and die before they come into payment a spouse's, **civil partner's** or, subject to certain qualifying conditions, an **eligible cohabiting partner's pension** and pensions for **eligible children** are payable.

For each year of membership from 1 April 2014 to your date of leaving, the pension payable to a spouse, **civil partner** or **eligible cohabiting partner** is the total of:

- 1/160th of the **pensionable pay** (or **assumed pensionable pay**)
- 49/160ths of the amount of any pension credited to your **pension account** following a transfer of pension rights into the Scheme from another pension scheme or arrangement.

For final salary membership built up **before** 1 April 2014 the pension payable to a spouse or **civil partner** is equal to 1/160th of your **final pay** times your membership in the Scheme up to 31 March 2014. If you marry or enter into a **civil partnership** after leaving it could be less. For an **eligible cohabiting partner**, the calculation is the same, but the pension is only based on the period of membership after 5 April 1988 (plus any of your membership before 6 April 1988 for which you've paid additional contributions so that it counts towards an **eligible cohabiting partner's** pension).

Pension terms in **bold** are defined in the [Some terms we use](#) section.

### What if I have two or more LGPS jobs?

If you:

- have two or more jobs in which you pay into the LGPS at the same time
- leave one or more but not all of them, and
- you are entitled to deferred benefits from the job (or jobs) you have left

your deferred benefits from the job that has ended are automatically transferred to the active **pension account** for the job you are continuing in, unless you elect to keep them separate. If you wish to keep your deferred benefits separate you must elect to do so within 12 months of re-joining the LGPS, unless your employer allows you longer. If you are not entitled to deferred benefits from the job (or jobs) you have left, you cannot have a refund of your contributions and you must transfer your benefits to the **pension account** for the job you are continuing in.

### Transferring your benefits

If you leave the Scheme and you are entitled to deferred benefits or a refund you can generally transfer the cash equivalent of your pension benefits into another pension arrangement or a new employer's pension scheme. This may even be to an overseas pension scheme or arrangement that meets HM Revenue and Customs conditions.

You cannot transfer your benefits if:

- you leave with less than three months' membership
- you leave less than one year before your **Normal Pension Age**, or
- you elect to transfer less than 12 months before your **Normal Pension Age**.

These restrictions do not apply if you are transferring **Additional Voluntary Contributions (AVCs)**.

Your new pension provider will require a transfer value quotation which your LGPS administering authority will guarantee for three months.

If you return to employment and re-join the LGPS after having previously built up an LGPS pension then these deferred benefits will normally automatically be transferred to the active **pension account** for your new job, unless you elect to keep them separate. If you wish to keep your deferred benefits separate, you must normally elect to do so within 12 months of re-joining the LGPS. Your employer may allow you longer to decide.

If you:

- left an LGPS employment without building up pension rights (normally if you had less than two years' membership)

Pension terms in **bold** are defined in the [Some terms we use](#) section.

## LGPS member guide | Leaving the Scheme before retirement

- did not take a refund of contributions, and
- re-join the LGPS

then this deferred refund **must** be joined with your new active **pension account**.

### Transferring your benefits to a defined contribution scheme

Flexible benefits were introduced by the Government from 6 April 2015 to allow members of defined contribution schemes, who are over age 55, more freedom on how they take money from their pension pot.

The LGPS is not a defined contribution pension scheme, it is a defined benefit scheme. It is not directly affected by these changes. However, if you stop paying into the LGPS and you have three or more months' membership, then unless you are retiring with immediate effect due to redundancy, business efficiency or ill health, you will have the right to transfer your LGPS pension to a defined contribution scheme providing flexible benefits. The transfer must be completed more than 12 months before you reach your **Normal Pension Age** in the LGPS.

Please note that you will be required by law to take independent financial advice if the value of your pension benefits in the LGPS (excluding AVCs) is more than £30,000. You are not required to take independent financial advice if the value of your benefits is less than £30,000. However, transferring your pension rights is not always an easy decision to make and seeking the help of an independent financial adviser before you make a final and irreversible decision to transfer could help you in making an appropriate decision.

There are four main options for members, aged over 55, who are in a defined contribution scheme which provides flexible benefits:

- purchasing an annuity
- flexi-access drawdown
- taking a number of cash sums at different stages
- taking the whole pot as cash in one go.

**Keep in touch** – remember to let the NYPF know if you move house.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

## Help with pension problems

### Who can help me if I have a query or complaint?

If you are in any doubt about your benefit entitlements or have a problem or question about your LGPS membership or benefits, please contact your LGPS administering authority. They will seek to clarify or put right any misunderstandings or inaccuracies as quickly and efficiently as possible. If your query is about your contribution rate, please contact your employer's personnel/HR or payroll section so they can explain how they have decided which contribution band you are in.

If you are still dissatisfied with any decision made in relation to the Scheme you have the right to have your complaint reviewed under the Internal Disputes Resolution Procedure and, as the Scheme is well regulated. There are also a number of other regulatory bodies that may be able to assist you.

The various procedures and bodies are:

#### Internal Disputes Resolution Procedure

In the first instance, you should write to the adjudicator appointed by the body who made the decision about which you wish to appeal. You must do this within six months of the date of the notification of the decision or the act or omission about which you are complaining (or such longer period as the adjudicator considers reasonable). This is a formal review of the initial decision or act or omission and is an opportunity for the matter to be reconsidered. The adjudicator will consider your complaint and notify you of his or her decision. If you are dissatisfied with that person's decision (or their failure to make a decision), you may apply to the Scheme's administering authority to have it reconsidered.

A leaflet explaining the Internal Disputes Resolution Procedure including relevant time limits is available from the LGPS administering authority.

#### The Pensions Advisory Service (TPAS)

TPAS provides independent and impartial information about pensions, free of charge, to members of the public. TPAS is available to assist members and beneficiaries of the Scheme with any pension query they have or any general requests for information or guidance concerning their pension benefits. TPAS can be contacted:

In writing: 11 Belgrave Road, London, SW1V 1RB

By telephone: 0800 011 3797

Website: [www.pensionsadvisoryservice.org.uk](http://www.pensionsadvisoryservice.org.uk) (where you can submit an online enquiry form).

#### The Pensions Ombudsman (TPO)

TPO deals only with pension complaints. It can help if you have a complaint or dispute about the administration and / or management of personal and occupational pension schemes. Some examples of the types of complaints it considers are (this list is not exhaustive):

Pension terms in **bold** are defined in the [Some terms we use](#) section.

## LGPS member guide | Help with pension problems

- automatic enrolment
- benefits: including incorrect calculation, failure to pay or late payment
- death benefits
- failure to provide information or act on instructions
- ill health
- interpretation of scheme rules
- misquote or misinformation
- transfers.

You have the right to refer your complaint to TPO free of charge. There is no financial limit on the amount of money that TPO can make a party award you. Its determinations are legally binding on all parties and are enforceable in court.

Contact with TPO about a complaint needs to be made within three years of when the event(s) you are complaining about happened – or, if later, within three years of when you first knew about it (or ought to have known about it). There is a discretion for those time limits to be extended.

TPO can be contacted:

In writing: 10 South Colonnade, Canary Wharf, E14 4PU

Telephone: 0800 917 4487

Website: [www.pensions-ombudsman.org.uk](http://www.pensions-ombudsman.org.uk) (where you can submit an online complaint form)

### **The Pensions Regulator (TPR)**

This is the regulator of work-based pension schemes. TPR has powers to protect members of work-based pension schemes and a wide range of powers to help put matters right, where needed. In extreme cases, the regulator is able to fine trustees or employers, and remove trustees from a scheme. If you have a concern about your workplace pension you can contact them:

By telephone: 0345 600 7060

Website: [www.thepensionsregulator.gov.uk](http://www.thepensionsregulator.gov.uk)

### **How can I trace my pension rights?**

The Pension Tracing Service holds details of pension schemes, including the LGPS, together with relevant contact addresses. It provides a tracing service for ex-members of schemes with pension entitlements (and their dependants) who have lost touch with previous schemes. All occupational and personal pension schemes have to register if the pension scheme has current members contributing to the scheme or people expecting benefits from the scheme.

Pension terms in **bold** are defined in the [Some terms we use](#) section.

## LGPS member guide | Help with pension problems

If you need to use this tracing service:

Write to: The Pension Tracing Service, The Pension Service 9, Mail Handling Site A, Wolverhampton, WV98 1LU

Telephone: 0800 731 0193

Website: [www.gov.uk/find-pension-contact-details](http://www.gov.uk/find-pension-contact-details)

**Don't forget to keep your pension providers up to date with any change in your home address.**

Pension terms in **bold** are defined in the [Some terms we use](#) section.

## Some terms we use

### Additional Voluntary Contributions (AVCs)

These are extra payments to increase your future benefits. You can also pay AVCs to provide additional life cover.

All local government administering authorities have an AVC arrangement in which you can invest money through an AVC provider, often an insurance company or building society. AVCs are deducted directly from your pay and attract tax relief.

### Admission body

An admission body is an employer that chooses to participate in the Scheme under an admission agreement. These tend to be employers such as charities and contractors.

### Assumed pensionable pay

This provides a notional **pensionable pay** figure to ensure your pension is not affected by any reduction in **pensionable pay** due to a period of sickness or injury on reduced contractual pay or no pay, or **relevant child related leave** or **reserve forces service leave**.

If you have a period of reduced contractual pay or no pay due to sickness or injury or you have a period of **relevant child related leave** or **reserve forces service leave**, then your employer needs to provide the LGPS administering authority with the **assumed pensionable pay**. This is the pay you would have received during that time, unless during the period of **relevant child related leave** the **pensionable pay** received was higher than the value of the **assumed pensionable pay**. Your employer must work out what your pay would have been for the period when you were on reduced contractual pay or no pay.

**Assumed pensionable pay** is calculated as the average of the **pensionable pay** you received for the 12 weeks (or three months, if monthly paid) before the pay period in which:

- you went on to reduced pay or no pay because of sickness or injury
- you started a period of **relevant child related leave** or
- you started a period of **reserve forces service leave**.

In calculating the average, any pay reduction due to authorised leave of absence or a trade dispute is ignored. If the pay you received in the 12 weeks (or three months if monthly paid) before the pay period in which you went on to reduced pay or no pay is materially lower than the pay you would normally receive, your employer has a discretion to use a higher pay in the calculation. Your employer must have regard to the **pensionable pay** you earned over the previous 12 months when determining what your normal level of **pensionable pay** is.

Once the average pay has been determined, the resulting figure is then grossed up to an annual figure and divided by the period you were on reduced pay or no pay for sickness or injury or on **relevant child related leave** or **reserve forces service leave**.

**Assumed pensionable pay** is also used to work out:

- any enhancement to your pension awarded as a result of ill health retirement
- any lump sum death grant following death in service, and
- any enhancement which is included in survivor benefits following death in service.

The **assumed pensionable pay** for these purposes is calculated as the average of the **pensionable pay** you received for the 12 weeks (or three months if monthly paid) before you died in service or before you left employment due to ill-health retirement. In calculating the average, any reduction due to authorised leave of absence or a trade dispute is ignored.

If the pay you received in the 12 weeks (or three months if monthly paid) before you died in service or before you left employment due to ill-health retirement is lower than the pay you would normally receive, your employer has a discretion to use a higher pay in the calculation. Your employer must have regard to the pensionable pay you earned over the previous 12 months when determining what your normal level of pensionable pay is. If an independent registered medical practitioner certifies that, during the period used to determine **assumed pensionable pay**, you were working reduced contractual hours because of the ill-health which led to your retirement or death in service, the **assumed pensionable pay** will be calculated on the pay you would have received during that period had you not been working reduced contractual hours. The resulting figure is then grossed up to an annual figure.

### **Automatic enrolment date**

This is the earlier of:

- the day you reach age 22, provided you are earning more than £10,000 (2020/21 figure) a year in the job, or
- the beginning of the pay period in which you first earn more than £10,000 (2020/21 figure) in the job, on an annualised basis, provided you are aged 22 or more and under **State Pension Age** at that time.

### **Civil partnership (civil partner)**

A **Civil Partnership** is a relationship between two people of the same sex or opposite sex (**civil partners**) which is formed when they register as civil partners of each other.

### Consumer Prices Index (CPI)

The **Consumer Price Index (CPI)** is the official measure of inflation of consumer prices in the United Kingdom. This is currently the measure used to adjust your **pension account** at the end of every **Scheme year** when you are an active member of the Scheme and each April, after you have left the Scheme, it is used to adjust the value of your deferred pension or pension in payment. The adjustment ensures your pension keeps up with the cost of living.

### Eligible children

**Eligible children** are your children. They must, at the date of your death:

- be your natural child (who must be born within 12 months of your death)
- be your adopted child, or
- be your step-child or a child accepted by you as being a member of your family and be dependent on you. This doesn't include a child you sponsor for charity.

**Eligible children** must:

- be under age 18, or
- be aged between 18 and 23 and in full-time education or vocational training. Your administering authority can continue to treat the child as an eligible child notwithstanding a break in full-time education or vocational training, or
- be unable to engage in gainful employment because of physical or mental impairment and either:
  - has not reached the age of 23, or
  - the impairment is, in the opinion of an independent registered medical practitioner, likely to be permanent and the child was dependent on you at the date of your death because of that mental or physical impairment.

### Eligible cohabiting partner

An **eligible cohabiting partner** is a partner you are living with who, at the date of your death, has met all the following conditions for a continuous period of at least two years:

- you and your cohabiting partner are, and have been, free to marry each other or enter into a **civil partnership** with each other, and
- you and your cohabiting partner have been living together as if you were a married couple, or **civil partners**, and
- neither you nor your cohabiting partner have been living with someone else as if you/they were a married couple or **civil partners**, and

## LGPS member guide | Some terms we use

- either your cohabiting partner is, and has been, financially dependent on you or you are, and have been, financially interdependent on each other.

Your partner is financially dependent on you if you have the highest income. Financially interdependent means that you rely on your joint finances to support your standard of living. It doesn't mean that you need to be contributing equally. For example, if your partner's income is a lot more than yours, he or she may pay the mortgage and most of the bills, and you may pay for the weekly shopping.

On your death, a survivor's pension would be paid to your cohabiting partner if:

- all the above criteria apply at the date of your death, and
- your cohabiting partner satisfies your LGPS administering authority that the above conditions had been met for a continuous period of at least two years immediately before your death.

You are not required to complete a form to nominate your cohabiting partner. However, you can provide your LGPS administering authority with your cohabiting partner's details. On your death, your LGPS administering authority will require evidence that the conditions for a cohabiting partner's pension are met.

### Eligible jobholder

An **eligible jobholder** is a worker who is aged at least 22 and is under **State Pension Age** and who earns more than the annual amount of £10,000 (2020/21 figure).

### Final pay

This is usually the pay in respect of (i.e. due for) your final year of Scheme membership on which you paid contributions, or one of the previous two years if this is higher. It includes your normal pay, contractual shift allowance, bonus, contractual overtime (but not non-contractual overtime), Maternity Pay, Paternity Pay, Adoption Pay, Shared Parental Pay and any other taxable benefit specified in your contract as being pensionable.

### Normal Pension Age

**Normal Pension Age** is linked to your **State Pension Age** for benefits built up from 1 April 2014 (but with a minimum of age 65) and is the age at which you can take the pension you have built up in full. If you choose to take your pension before your **Normal Pension Age** it will normally be reduced, as it's being paid earlier. If you take it later than your **Normal Pension Age** it's increased because it's being paid later.

You can use the Government's **State Pension Age** calculator ([www.gov.uk/calculate-state-pension](https://www.gov.uk/calculate-state-pension)) to find out your **State Pension Age**.

Remember that your **State Pension Age** may change in the future. If it does, this would also change your **Normal Pension Age** in the LGPS for benefits built up from 1 April 2014. Once your LGPS pension is being paid to you, any subsequent change in your **State Pension Age** will not affect your **Normal Pension Age** in the LGPS.

If you were paying into the LGPS before 1 April 2014, your final salary benefits retain their protected **Normal Pension Age** which for most is age 65.

All pension benefits paid on normal retirement must be taken at the same date. You cannot choose to have your final salary pension (built up before April 2014) paid at age 65 and your pension in your **pension account** (built up from April 2014) at your **Normal Pension Age** (which for benefits built up from 1 April 2014 is linked to your **State Pension Age** but with a minimum of age 65).

### Pension account

Each **Scheme year** the amount of pension you have built up during the year is worked out and this amount is added into your active **pension account**. Adjustments may be made to your account during the **Scheme year** to take account of:

- any transfer of pension rights into the account during the year
- any additional pension you purchased during the year
- any additional pension which is granted to you by your employer
- any reduction due to a Pension Sharing Order or qualifying agreement in Scotland (following a divorce or dissolution of a **civil partnership**) and
- any reduction due to an Annual Allowance tax charge that you have asked the Scheme to pay on your behalf.

Your account is revalued at the end of each **Scheme year** to take account of the cost of living. This adjustment is carried out in line with the Treasury Revaluation Order index which is the rate of the **Consumer Prices Index (CPI)**.

You will have a separate **pension account** for each employment. That **pension account** will hold the entire pension built up for that employment.

In addition to an active member's **pension account** there are also:

- a deferred member's **pension account**
- a deferred refund account
- a retirement pension account
- a flexible retirement **pension account**
- a deferred pensioner member's account

## LGPS member guide | Some terms we use

- a pension credit account and
- a survivor member's account.

These accounts will be adjusted by any debits for any Pension Sharing Order or qualifying agreement in Scotland (following a divorce or dissolution of a **civil partnership**) and for any Annual Allowance tax charge that you have asked the Scheme to pay on your behalf. These accounts are currently increased each April in line with the **Consumer Prices Index (CPI)**. A deferred refund account will not be adjusted in these ways.

### Pensionable pay

The pay on which you normally pay contributions is your normal salary or wages plus any shift allowance, bonuses, overtime (both contractual and non-contractual), Maternity Pay, Paternity Pay, Adoption Pay, Shared Parental Pay and any other taxable benefit specified in your contract as being pensionable.

You do not pay contributions on:

- any travelling or subsistence allowances
- pay in lieu of notice
- pay in lieu of loss of holidays
- any payment as an inducement not to leave before the payment is made
- any award of compensation (other than payment representing arrears of pay) made for the purpose of achieving equal pay
- pay relating to loss of future pensionable payments or benefits,
- any pay paid by your employer if you go on reserve forces service leave nor
- the monetary value of a car or pay received in lieu of a car (apart from some historical cases).

### Relevant child related leave

**Relevant child related leave** includes periods of:

- Ordinary Maternity or Adoption Leave (normally the first 26 weeks)
- Paid Additional Maternity or Adoption Leave (normally after week 26 and up to week 39)
- Paternity Leave
- Paid Shared Parental Leave or
- Paid parental bereavement leave.

### Reserve forces service leave

This occurs when a Reservist is mobilised and called on to take part in military operations. The period of mobilisation can be up to a maximum of 12 months. During a period of **reserve forces service leave** you will, if you elect to stay in the LGPS during that leave, continue to build up a pension based on the rate of **assumed pensionable pay** you would have received had you not been on **reserve forces service leave**.

### Scheme year

The Scheme year runs from 1 April to 31 March each year.

### State Pension Age

This is the earliest age you can receive the basic state pension. **State Pension Age** for women was increased between 2010 and December 2018 to be equalised with the **State Pension Age** of 65 that applied to men up to December 2018.

**Table 3: State Pension Age equalisation timetable for women**

Date of birth	New State Pension Age
Before 6 April 1950	60
6 April 1950 - 5 April 1951	In the range 60 - 61
6 April 1951 - 5 April 1952	In the range 61 - 62
6 April 1952 - 5 April 1953	In the range 62 - 63
6 April 1953 - 5 August 1953	In the range 63 - 64
6 August 1953 - 5 December 1953	In the range 64 - 65

The **State Pension Age** increases to 66 for both men and women between December 2018 and October 2020.

**Table 4: State Pension increases up to October 2020**

Date of birth	New State Pension Age
6 December 1953 - 5 October 1954	In the range 65 - 66
After 5 October 1954	66

Under current legislation, the State Pension Age is due to rise to 67 between 2026 and 2028 and to 68 between 2044 and 2046. However, the Government has [announced plans](#) to bring forward the rise to 68 to between 2037 and 2039.

### Vesting Period

The **vesting period** in the LGPS is two years. You will meet the two years **vesting period** if:

- you have been a member of the LGPS in England and Wales for two years, or
- you have brought a transfer of pension rights into the LGPS in England or Wales from a different occupational pension scheme or from a European pensions institution and the length of service you had in that scheme or institution was two or more years or, when added to the period of time you have been a member of the LGPS is, in aggregate, two or more years, or
- you have brought a transfer of pension rights into the LGPS in England or Wales from a pension scheme or arrangement where you were not allowed to receive a refund of contributions, or
- you have previously transferred pension rights out of the LGPS in England or Wales to a pension scheme abroad (i.e. to a qualifying recognised overseas pension scheme), or
- you already hold a deferred benefit or are receiving a pension from the LGPS in England or Wales (other than a survivor's pension or pension credit member's pension), or
- you have paid National Insurance contributions whilst a member of the LGPS and cease to contribute to the LGPS in the tax year of attaining pension age,
- you cease to contribute to the LGPS at age 75, or
- you die in service.

**Further information and disclaimer**

This guide is for employees in England or Wales and reflects the provisions of the LGPS and overriding legislation as at June 2020.

The national website for members of the LGPS is [www.lgpsmember.org](http://www.lgpsmember.org)

This guide cannot cover every personal circumstance. It does not cover all ill health retirement benefits nor rights that apply to those whose rights are subject to a pension sharing order following divorce or dissolution of a civil partnership. Nor does it cover rights that apply to a limited number of employees e.g. those whose total pension benefits exceed the lifetime allowance (£1,073,100 million in 2020/21), those whose pension benefits increase in any tax year by more than the standard annual allowance (£40,000 in 2020/21) or for high earners, the tapered annual allowance, or those to whom protected rights apply. You can find out basic information about the lifetime allowance and the annual allowance in the [LGPS member videos: Pensions Made Simple](#).

In the event of any dispute over your pension benefits the appropriate legislation will prevail. This short guide does not confer any contractual or statutory rights and is provided for information purposes only.

More detailed information about the Scheme is available on the NYPF website at [www.nypf.org.uk](http://www.nypf.org.uk) or you can contact the NYPF in the following ways:
